* * * * *

NEW MEMBERSHIP LIST: A new up-to-date membership list will be included with your December Bulletin. This new list will also list all the new Officers and Staff for 1969.

* * * * *

MATERIAL FOR BULLETIN: You will note that this Bulletin is one page shorter than usual. We have had a slowdown of good material coming in for publication in the Bulletin. All members are invited to furnish material. Please check your files and send in any items that you feel would be of interest to other collectors in the club. Further, why not sit down and write a short article concerning a special item in your collection or about some numismatic experience you have had. All subjects are welcome and urgently requested.

* * * * *

CHRISTMAS DINNER MEETING: Program Chairman EDWARD E. SLADE, JR. has requested that all persons planning to attend the Christmas Dinner Meeting at the La Tunisia Restaurant on December 18th send in your check and reservation now. The cost is only \$5.00 per person and this includes a gourmet dinner, excellent program and displays. We must have some indication of the number of people to expect so that we can finalize plans with the La Tunisia. You can make your reservation on the regular coin order form included with the Bulletin each month. **DON'T WAIT UNTIL THE LAST MINUTE - DO IT NOW!**

ADDITION OF PLATES TO NI-GCTA REPORT: Patrick D. Hogan, who along with Jack E. Lewis did such an excellent job on the China section of the NI-GCTA "Report of the Committee to Research World Coinage Types and Varieties", has finished 10 pages (7 on China) of hand-drawn plates covering various items in the report. These plates are very professionally done and have been reproduced by Richard R. Schubert of GCTA and NI. All unsold copies of the report will include these 10 pages of plates.

For those persons who have already purchased a copy or copies of the Report, they can obtain a set for each of their Reports simply by mailing a large size stamped (12¢), self-addressed envelope to:

Richard R. Schubert
5536 West 26th Street
Cicero, Illinois 60650, USA

Overseas members may simply request the plates and the mailing costs will be charged to your account. For those not desiring that the sheets be folded, they are cautioned to send a 9 x 12 envelope. If you do not mind the sheets being folded, a regular 4-1/8 x 9-1/2 (or larger) business size envelope will suffice. DO NOT SEND THE SMALL PERSONAL LETTER SIZE ENVELOPE!

Many thanks to Pat Hogan for doing such a fine job on these and also to Dick for taking on the task of reproducing and distributing them.

Remember, if you have already purchased a copy of the report, send a 12¢ stamped, self-addressed envelope today to Richard Schubert for each set of plates wanted. That is the only cost and must be considered a bargain for NI and GCTA members.

* * * * *

1969 DUES: Dues for the calendar year 1969 are now being accepted by the club secretary. These dues can be added to your coin order form or paid at the meeting, whichever you prefer. For the benefit of all who may have forgotten the exact amount of dues, here is a breakdown:

Continental United States	\$2.00 First Class Mail
Alaska, Hawaii, APO & FPO Addresses	2.00 Airmail
Canada & Mexico	2.00 Airmail
Europe, South & Central Americas	5.00 Airmail
Russia, Asian Countries, Australia & New Zealand	7.00 Airmail
All overseas countries by Seamail	2.00 Seamail

For new membership applications during the year, the dues are broken down as follows:

Full Annual Dues	- December-February Applications
3/4 of Annual Dues	- March-May Applications
1/2 of Annual Dues	- June-August Applications
1/4 of Annual Dues	- September-November Applications

The month your application is printed in the Bulletin determines the dues. Use this as a guide in signing up new prospective members.

A BOOK REVIEW - by Jerry Remick

"Final Report of Committee to Research World Coinage Types and Varieties" - by Members of Numismatics International & Globe Coin Traders Association, 126 pages, mimeographed, \$2.00. Published by Numismatics International, P. O. Box 30013, Dallas, Texas 75230.

This detailed report covers recommendations for listing of coins in R. S. Yeoman's "Catalogue of Modern World Coins - Eighth Edition" and subsequently printed editions.

The main recommendations for each country in this report are:

Inclusion of the more modern coins in Yeoman's "Current Coins of the World" and dropping them from Yeoman's "Catalogue of Modern World Coins";

the inclusion of asterisks by each type coin where it is illustrated;

the inclusion of the size of a coin in millimeters wherever necessary;

the inclusion of some countries that have been left out;

renumbering the coins of some countries;

placing countries alphabetically such as the Canadian Provinces;

and the inclusion and expansion of the listings of many types and varieties of coins which have been left out.

A 22 page listing of the type coins of China in this report contains much data not in Yeoman and is worth the price of the report alone.

A 9 page listing of the type coins of Afghanistan gives much new data on these coins.

Lengthy listings of the type coins of the Netherlands and Switzerland also give some data not in Yeoman.

The writers recommend the separation of the Flemish and French coins of Belgium in a 5 page listing.

Complete renumbering of Columbia and Costa Rica are suggested and the new numbering system is given in 4 pages for each country.

It will probably take several editions of Yeoman's "Catalogue of Modern World Coins" before all the more important recommendations can be incorporated. In the meantime this book, printed on type-writer size paper, is most useful and indispensable to the collector of modern world coins. One can see by the detailed nature of the book that much time, effort, discussion, and good thinking went into it. It is highly recommended to all numismatists.

(Editors Note: Recently, 10 pages of plates (7 on China) have been added to the report. All unsold copies will include these plates. If you have already purchased your copy, see Page 5 for information on how to order your set of plates.)

A BOOK REVIEW - by Jerry Remick

"A Catalogue of Modern World Coins 1850-1964" by R. S. Yeoman, Eighth Edition, 509 pages, illustrated, \$5.00 U.S. Published October 1, 1968 by Western Publishing Co., Inc., 1220 Mound Ave., Racine, Wisconsin 53404, USA.

All coins of the countries issued between 1850 and 1964 are listed and priced in the eighth edition of this standard reference of modern world coins. Good photographs are given of many of the type coins and prices are given for one grade for each type coin.

All coins issued since 1964 are listed in "Current Coins of the World", by R. S. Yeoman. Coins issued in the 100-year period previously to 1850 are listed in "Coins of the World 1750-1850" by William Craig. These additional standard reference books are also published by the Western Publishing Co.

New features of this edition include very selective grading and pricing for each type coin; revision and renumbering of some countries; additions to the text; and addition of new photographs and replacement of some old photographs. Prices have been increased slightly to moderately for some coins reflecting the increased interest and demand by collectors for type coins of the world. Prices for some very scarce coins have risen considerable to realistic levels. Valuations listed for the coins are in keeping with current market trends.

A high degree of emphasis on condition, grading and pricing is perhaps the most notable improvement in this edition. Each coin is priced in one condition from Fine to Uncirculated, depending on the condition in which it is most usually sold. The condition for some coins have been raised one grade in this edition. A great deal of thought and selectivity has been given to the listed condition for each coin as there is a range of from Fine to Uncirculated for most countries. Gold coins are listed in Very Fine condition.

The coins of Afghanistan and Italy have been renumbered and a few new type coins have been added. A table showing the numerals of Burma and Siam has been inserted before each of these countries and will be extremely helpful.

Asterisks have been placed before many more of the coins which are illustrated.

The eighth edition of this standard reference on modern world coins is highly recommended to all collectors.
